DETAILED ACTION

1. This communication is in response to Applicant's amendment filed on September 10, 2008. Claims 21-71 are pending. The rejections cited are as stated below:

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on March 15, 2007, April 17, 2008 and June 25, 2008 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements have been considered by the examiner.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 21-38 and 49-71 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to a non-statutory subject matter.

Claims 21-38 and 49-71 recite a process comprising the steps of using, calculating, referencing and trading. Based on Supreme Court precedent, a proper process must be tied to another statutory class or transform underlying subject matter to

a different state or thing (*Diamond v. Diehr*, 450 U.S. 175, 184 (1981); *Parker v. Flook*, 437 U.S. 584, 588 n.9 (1978); *Gottschalk v. Benson*, 409 U.S. 63, 70 (1972); *Cochrane v. Deener*, 94 U.S. 780,787-88 (1876)). Since neither of these requirements is met by the claims, the methods are not considered a patent eligible process under 35 U.S.C. 101. To qualify as a statutory process, the claim should positively recite the other statutory class to which it is tied, for example by identifying the apparatus that accomplished the method steps or positively reciting the subject matter that is being transformed, for example by identifying the material that is being changed to a different state.

Allowable Subject Matter

4. Claims 39-48 are allowed.
